PROFESSIONAL SUMMARY

I'm Kaan, a results-driven full-stack developer with a strong focus on backend technologies like PHP, Laravel, and ASP (VBScript), combined with frontend proficiency in JS (jQuery React.js), HTML, and CSS. My software journey began in high school through web design, evolving into a solid academic and professional foundation in full-stack development. With hands-on experience in building scalable web applications, optimizing databases, and integrating APIs, I bring a pragmatic and solution-oriented mindset to every project. I'm highly adaptable, thrive in collaborative environments, and continuously expand my skills to stay ahead of emerging technologies. Whether building e-commerce platforms, modern APIs, or refactoring legacy systems, I'm passionate about writing clean, maintainable code that delivers real value.

WORK HISTORY

Full Stack Developer, 11/2023 - Current

BocekSoft Digital Solutions – Mugla, Fethiye

- At Boceksoft Digital Solutions, I contributed to the development and maintenance of scalable web applications using **PHP (Laravel)** and **Classic ASP** on the backend, with **MSSQL** for database management. On the frontend, I implemented dynamic user interfaces using **React.js**, **jQuery**, **JavaScript**, **Bootstrap**, and **Tailwind CSS**. I also maintained and modernized legacy systems written in **.NET Core**, ensuring smooth integration with newer technologies.

Php & Laravel Developer, 07/2023 - 11/2023

RotaEge Company – Mugla, Fethiye

- At **RotaEge Company**, I worked as a **PHP & Laravel Developer**, building and maintaining custom web applications tailored to tourism sector needs. I developed backend features using **Laravel**, designed efficient database structures with **MySQL**, and implemented user-friendly interfaces using **HTML**, **CSS**, and **JavaScript** to ensure seamless user experiences.

Full Stack Developer, 07/2022 - 02/2023

Cinfikir Digital Agency – Aydın, Aydın

- At **Cinfikir Digital Agency**, I was responsible for leading the **web development department**, overseeing the full cycle of website and admin panel development. I built **corporate websites** and **custom CMS panels** using **PHP**, **MySQL**, **HTML**, **CSS**, **Bootstrap**, **JavaScript**, and **jQuery**, ensuring all projects met client expectations in terms of performance, responsiveness, and usability.
